

The Philippine Drug Price Reference Index

2019
7th Edition

ACKNOWLEDGEMENTS

The 2019 Edition of the Drug Price Reference Index (DPRI) is a product of hard work and dedication of the Department of Health (DOH) Pharmaceutical Division headed by Dr. Anna Melissa S. Guerrero, team efforts of the System Support Unit supervised by Ms. Vanessa J. Saulog – Obera, and led by Mr. Achilles V. Aragona together with the team members namely: Mr. Christian M. Villostas, Mr. John Lester M. Custodio, Ms. Geny C. Belmonte, Mr. Jaldrin Ivan M. Bunag, and Mr. Christian Joel M. Tambong.

The technical contributions of other staff are also acknowledged in particulars: Mr. Aris M. Posadas for continuously enhancing the DPRI website and database and Mr. Adell R. Azuelo for the processing of DPRI booklet printing.

Special thanks also to all NDP Compliance Officers and EDPMS Helpdesks who aided in the implementation of the DPRI and to the DOH-Pharmaceutical Division family. All DOH Retained / Specialty Hospitals and Centers for Health Development (CHDs) for contributing their data to the Department of Health.

Lastly, we thank our Assistant Secretary for Health Regulation Charade B. Mercado-Grande, Undersecretary for Health Regulation Rolando Enrique D. Domingo and Health Secretary Francisco T. Duque III for their unwavering support and commitment in the implementation of the program.

OVERVIEW

The high and extremely variable prices of medicines in the Philippines impact on access to effective, efficient and equitable health care. In 2009, a study conducted by *Health Action International* revealed that there was extreme variability in the procurement prices of essential medicines across the national and local public health facilities in the country. On average, originator brands and generic equivalents were procured almost 16 times and 3 times higher, respectively, compared to prices available on the international market.¹

The DOH-Central Bids and Awards Committee (DOH-COBAC) and DOH Hospitals were shown to have more efficient procurement prices compared to provincial and municipal health facilities, thus leading to variability in access to essential medicines across the Philippines.

Republic Act (RA) 9502 or the Universally Accessible Cheaper and Quality Medicines Act of 2008 gave the DOH instruments to monitor and regulate the prices of drugs and medicines to protect consumers and the public procuring entities from excessive mark-ups applied to prices of medicines resulting from information asymmetry and the lack of effective market competition.

To address these issues, the DOH Pharmaceutical Division (formerly NCPAM) established a Drug Price Reference Index (DPRI) for all essential medicines to guide all national and local government health facilities in the efficient sourcing of pharmaceutical products in the public sector.

What is the Drug Price Reference Index (DPRI)?

The DPRI lists the ceiling prices of essential medicines for government bidding and procurement set by the DOH for all National and Local Government Health Facilities and Government Agencies. Winning bid prices of essential medicines within the DPRI ceiling reflect efficient and effective procurement in the government. Their transparency and enforcement ensure consumer access to medicines and protection from excessive price mark-ups on medicines.

¹ Douglas B, Tisocki K (2009) Public Procurement Prices of Medicines in the Philippines. Health Action International. The data coming from reputable suppliers are only considered in the database which means that they should be licensed by the Philippine Food and Drug Administration (FDA) and have certificate of Good Manufacturing Practice issued by the FDA.

It aims to improve the efficiency and good governance in the pricing and procurement of medicines in the public sector through establishing a transparent and publicly available reference price for affordable and quality medicines. It also aims to guide the Philippine Health Insurance Corporation (PHIC) in setting reimbursement caps for medicines both for inpatient and outpatient services.

The DPRI only reflects the acquisition costs including landed cost, packaging, drug content, quality assurance, manufacturing overheads and Food and Drug Administration (FDA) fees. The DPRI excludes other costs such as pharmacy services, preparation and storage fees, and other reasonable pharmacy mark-ups, which are now being evaluated by the DOH.

Who should use the DPRI?

All government entities should be guided by the DPRI when procuring medicines. It shall be applied to all forms of procurement such as **public bidding, direct contracting, shopping, negotiated procurement, emergency procurement** and **consignment** to ensure that the government achieves the best value for money in sourcing essential medicines.

What are the sources of Price Data?

The DPRI is computed based on the prevailing tender prices of the previous year (**2018**) reflected in the actual Purchase Orders (POs) submitted by the DOH Retained Hospitals, Centers for Health Development (CHDs), Central Office Bids and Awards Committee (COBAC) and Philippine Pharma Procurement Inc. (PPPI) to the DOH.

How the Drug Price Reference Index (DPRI) determined?

The reference price is set at the Median or the 50th percentile across the range of prevailing tender prices of essential medicines for each preparation and strength. However, for drugs and medicines with two entries, for patented drugs and medicines and with limited competition the reference price was set to lowest. Health facilities may add an allowable margin up to 10% to account for the inflation.

How often is the DPRI updated?

The DPRI is updated annually. All DOH hospitals and CHDs submit a copy of their latest Purchase Orders to the DOH Pharmaceutical Division for annual collection and analysis of price data. The updated DPRI is based on the procurement price data of medicines from the previous year.

How to set the ABC of medicines not included in this edition?

In case where the latest DPRI published has no reference price available for certain essential medicines, government health facilities and agencies may do any of the following options in compliance with the Implementing Rules and Regulations (IRR) of Republic Act (RA) 9184 or the Government Procurement Act:

- The facility may utilize the previous year's awarded price as an approved budget for the contract (ABC).
- The procuring entity may conduct a market survey and use the cheapest price in the market.

Occurrence of Bid Failure

In case of failed biddings, provision of RA 9184 and its IRR shall be applied. All procuring entities are advised to submit the list of medicines that resulted in bid failure to the DOH-PD. The report should comply the template provided by DOH-PD which can be downloaded at their website at www.dpri.doh.gov.ph.

Drugname		Lowest - Highest (GIDA Area)	2019 DPRI
A			
1.	Acetazolamide 250 mg Tablet	20.00 - 20.00	20.00
2.	Acetylcysteine 100 mg Sachet	7.00 - 11.54	9.00
3.	Acetylcysteine 100 mg/mL, 3 mL Ampule	84.00 - 118.55	84.00
4.	Acetylcysteine 200 mg Sachet	7.50 - 16.67	10.00
5.	Acetylcysteine 200 mg/mL, 25 mL Bottle	1,261.26 - 1,545.00	1,261.26
6.	Acetylcysteine 600 mg Effervescent Tablet	12.00 - 37.25	22.00
7.	Aciclovir 200 mg Tablet	3.04 - 8.88	4.84
8.	Aciclovir 25 mg/mL, 10 mL Vial	512.23 - 1,183.22	977.43
9.	Aciclovir 400 mg Tablet	4.29 - 30.00	13.28
10.	Aciclovir 800 mg Tablet	16.25 - 56.07	40.00
11.	Adenosine 3 mg/mL, 2 mL Vial	167.33 - 2,200.00	221.32
12.	Albumin, Human 20%, 50 mL Bottle	1,760.00 - 2,750.00	1,920.11
13.	Albumin, Human 25%, 50 mL Bottle	1,997.12 - 3,250.00	2,275.00
14.	Alcohol, Ethyl 70% solution, 500 mL Bottle	48.95 - 51.00	50.00
15.	Alendronate Sodium 70 mg Tablet	34.00 - 195.00	129.00
16.	All-in-One Admixtures ("3-in-1" or "dual energy" solutions) "3 in 1" 1000 Kcal Bottle	2,000.00 - 3,280.00	2,000.00
17.	All-in-One Admixtures ("3-in-1" or "dual energy" solutions) "3 in 1" 1300 Kcal Bottle	3,100.00 - 5,200.00	3,900.00
18.	All-in-One Admixtures ("3-in-1" or "dual energy" solutions) "3 in 1" 1400 Kcal Bottle	1,600.00 - 3,640.00	1,988.00
19.	All-in-One Admixtures ("3-in-1" or "dual energy" solutions) "3 in 1" 1500 Kcal Bottle	3,500.00 - 4,800.00	3,500.00
20.	All-in-One Admixtures ("3-in-1" or "dual energy" solutions) "3 in 1" 1900 Kcal Bottle	1,750.00 - 5,100.00	3,643.17
21.	Allopurinol 100 mg Tablet	0.50 - 6.92	2.80
22.	Allopurinol 300 mg Tablet	0.85 - 13.00	2.09
23.	Alprazolam 250 mcg Tablet	4.10 - 20.00	4.10
24.	Alprazolam 500 mcg Tablet	8.00 - 30.00	18.00

Health facilities may have a price variation up to 10% above the DPRI to account for inflation

	Drugname	Lowest - Highest (GIDA Area)	2019 DPRI
